THE SAFETY OF THE NEW FORD

SAFETY, comfort, reliability, economy, speed, acceleration, beauty—these are the features that make the new Ford such a good value. Of all, there is none more important than SAFETY.

The safety of the new Ford comes not only from its efficient brakes, but from many other factors. Among these are ease of steering and control, the Triplex shatter-proof glass windshield, and the sturdy, balanced construction of the car. This includes the enduring quality of mechanical parts as well as the structural strength of the body.

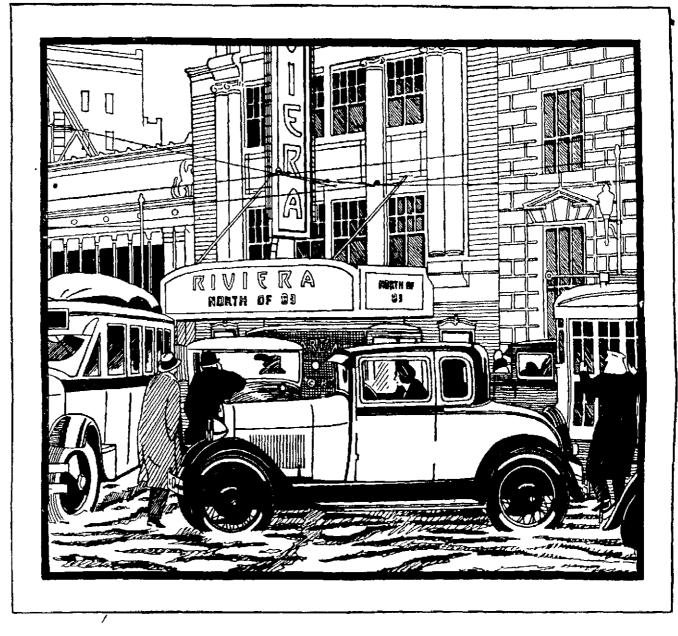

A particularly interesting feature of the Ford car is the manner in which electric welding has been carried forward to new usefulness through the creation and development of hundreds of special machines.

Electric welding gives simplicity and strength

This very important and increasingly valuable tool of modern manufacturing makes it possible to use one-piece units instead of several parts riveted or bolted together, with resulting gain in strength and simplicity.

Electric welding also permits the use of steel forgings instead of castings or stampings, without increase in weight or greatly increased cost.

Steel forgings are used not only in the front axle, steering gear, transmission, clutch, drive shaft and rear axle housing of the new Ford, but in the shock absorber parts, the emergency

brake lever, the torque tube flange and everywhere else where great strength is required. The strength of forgings makes for unusual safety.

Another safety factor worth noting is the manner in which the new Ford holds the road at all speeds. This is due to the low center of gravity, the carefully planned

Beauty and utility are combined in unusual degree in the new Ford Shown here is the Ford Coupe—an especially good car for the woman driver because it is so sufe and reliable and easy to control.

balance or distribution of structural and mechanical weight, and the low ratio of unsprung weight to sprung weight. The coordinated action of the transverse springs and Houdaille hydraulic shock absorbers controls exaggerated bouncing.

All six brakes are fully enclosed

One of the outstanding features of the new Ford, of course, is its mechanical, internal-expanding six-brake system. This is unusually reliable and effective because the surfaces of all six brakes are fully enclosed. There is no possibility of water, dirt or oil interfering with brake action under any condition.

The silence of these brakes is another thing.

shoe in uniform contact with the drum the instant you press your foot on the pedal.

The value of the protection afforded by the Triplex shatter-proof glass windshield of the new Ford is shown by a recent survey, indicating that 65% of injuries in automobile accidents are due to flying glass. The windshield in the new Ford is so made that it will not shatter under the hardest impact. Particularly where there are women and children, it is an important safety factor.

Ease of steering and control are additional factors in the safety of the new Ford. The steering gear is what is known technically as three-quarter irreversible. This means that the bumps and jolts of the road are fully absorbed by the wheels and steering mechanism of the car and are not transmitted to the hands of the driver. A slight touch is sufficient to guide the car. Yet you always have that necessary feel-of-the-road.

The ease of shifting gears, quick acceleration, abundant power and speed for every emergency, and full vision front, side and back, are other points to remember in considering the unusual safety of the new Ford.

Sickness all around us " but my family escaped

"Lifebuoy's antiseptic lather was a real help,"says Mrs. W. L. Mezger

"We HAVE been using Lifebuoy Soap for years, so many that I fail to remember the time our household was without it,"
says Mrs W L Mezger, charming mother
of a husky nine year old son, Billy, and sunt
of little Martha. "My hushand used it before we were man

ried and when we had a boy large enough to enjoy a close acquaintance with Mother Earth we found it most indispensable. Small cousins use it also, so it is a genuine family friend.

"It does more than cleanse. With its antiseptic qualities, Lifebuoy is a real help in
guarding against germs. Our hands can't
help coming in contact with germs every day,
especially during mooths like these when
lots of people are sick and there are more
germs than ever about. germs than ever about.

"But you do feel so much safer using Lifebooy. Our household has always been sangulatly from from illness. In fact, many

times there was sickness all around us, but my family escaped " Mrs. W. L. Merger, 5131 Forest Are , Konsas City, Ms.

Mrs. Meager is typical of the millions of mothers who rely upon Lifebuoy to belp them guard family health.

Is your family safeguarded?

Are you denying your family such a vital means of health protection? Remember that no one escapes contact with germs. Every day you and your loyed ones must touch things you and your cover that the that others also have to handle—money, toys, doorknobs and many more things may transfer germs to hands. But Lufebuoy's gentle antiseptic lather removes germs! It guards against the 27 germ diseases that the Life Extension institute says hands may spread.

Your family has to wash with some toilet soap anyway, so why not use Lifebuoy which gives added health protection—at no extra cost? You'll quickly learn to love Lifebuoy's cost? Intil quickly sent so love Literary popularion perifics, and which vanishes as you runse. Adopt the Lifebuoy health habit today.

Produces More Gold, Editor Declares in Address

MINNEAPOLIS, Minn. - Canada MINNEAUDLIS, Minn.— Canada is the last great mining field open to the white man, Sidney Norman of Toronto, efficor of the Canadian Mining World, declared in au address before bankers and brokers

here. Mining conditions in Gausda were reviewed by Mr. Norman, who declared the dominion soon will replace the Unital States as the learning gold producing country of the world. He stubilantiated this states are the producing and that this yourword. he substantiated this state-ment by pointing out that this won-try's gold, production has declined 50 per cent in the past 10 years, while that of Gaudda has increased 150 per cent.

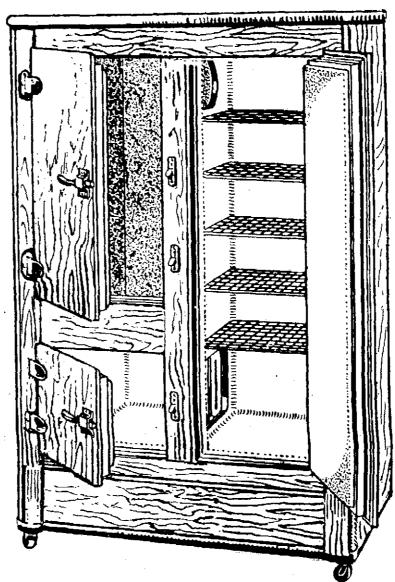

per cent.

Mr. Norman quoted figures showing that Canada lead production had grown one thousand per cent, couper production 350 per cent, and zirc 700 per cent, while it continued to tend the world in the production of nickel, mining 90 per cent of the entire world's supply.

Dressed for the theatre

If doctors' warnings were heeded literally, this is how sou would dress for the theatre. Statistics prove that the front line trenthes were hardly more dangerous to health than crowds of coughers and sneezers

Since you can't wear so outlandish a cestume, protect yourself before and after exposure in poorly ventilated gatherings by taking GROVE'S BROMO QUININE. The mild laxative effect rids the system of poisons caused by colds. The tonic benefits build up the body's defenses.

Never wait for serious symptoms. Use the tablets from the little white box promptly, and frequently you will side-step the cold entirely, or throw it off quickly ... Results have made this the largest selling remedy Results are the reason for avoiding substitutes. So emphasize GROVES, when siking for GROVES BROMO QUININE. Price 30c.

The Sallor will desote a week to golf before settling down to the grind of getting ready for Stribling.

Stribling, on the other hand, who may weigh in as much as 10 pounds lighter than his Boston opponent, must keep in shape without losing too much weight. With this in mind he will start his first real weekout must keep in shape without loving too much weight. With this in mind he will start his first real wockout under the star-shot tropleni night ckes rather than the warmach sun of midday. He will begin to ready up for the fight with a session of rand work fonight.

The athletes spent their Sunday in contrasting manner. Sharkey attended the dedication of St. Patrick's Catholic church in Minn Beach and was the first of the season for the Agosta tram, sent them into fourth

The critic who saw him as a hum for six rounds lead plenty of good consight, as for as my snowed glasses were concerned. It is possible that he are as we more than Risko did. However, this critic did seem to hit the mid on the neggin with fair accuracy when he thought he observed signs that Scheming wasn't altogether indifferent about pupnehas received in and upon the meranine level. Tournament at Van Wert

The Marion Y. M. C. A. tolleybell team is just shout all set for the north Central Ohio district tournamen scheduled for Treetay, Feb. 26, at Van Wert. Teams from Foledo, Limo, Van Wert. Fradhy, Tiffin. Bellevue, Upper Sandusky and Marion will be entered. The double chainston plan all be used. The state tournament will follow about a week and o half letter than the district chainations. The state play is scheduled for Columbus on March B, at the Central Y. M. C. A. The Marion team has won the district champlouship for about the last five years and word from the other teams in the district is that they are going a break the local's long winning streak. Casch F. Otto Rudolph, of the Marion outiff, is just as certain that there is no practical reason why the local team should not keep right on winning.

Wittenberg, Winners Over So-Called Championship Wa leyan Five, Beaten by Cincinnati Bearcats; Delaware Still in Lead of Conference

DASKETBALL fans can expect slip again, Denison can easily have most anything at all in Ohio Bishops for first place.

Wittenberg, after a streng expectally in the Huckere conference week-end, should recuperate, and a where the for has been spirifs this and fast the last few nights. Wonders now rould not foulble in downing Ohio expectable.

Ohio Wesleyan, proclaimed by the same state, winning 13 consecutive victories state, winning is consecutive victories, seemed unbeatable until they fourneyed over to Springüeld last Friday night, and met their Waterloo, falling before the terrific analaught of the fighting Luthrans of Wittenberg, 50 to 38. That was an upeer of the first order.

order.
Not satisfied with the fall of the Bishops, the Bearcat of Cincinnati, last year's champlonship team, took Wittenberg for a ride Saturday might to the time one of 20 to 21. Now what

Wittonberg beat Wesleyan, supposedly the champlen, then Ciacinatl wallops Wittenberg, making the Bearcats
the heat team.

But according to the figures, the
Battling Bishops are still in the lead,
with four games won and one down,
making a purcenlage of \$90, while
Cincinants is trailing, with four wais
and two defects, \$97. And then the
rub comes up. Denson, its with Cincinnal, with the same number of
wins and losses, while Wittenberg, defecter of champions, is 'way down helow the middle with only a pair of
victories and four setbacks. victories and four setbacks. The other teams of the conference

The other teams of the conference are out of the running entirely. Miami and Ohio with only one win spiece. But for all that, these two teams may upset the dope some more, changing the percentage quite a bit At any rate, the foar should not be surprised at anything that may happen from now on. from now on.
